253-848-9473

## **Spreader Bar & Lift Fixture Services:**

Load Testing & Inspection

**Verify the Safety of your Lifting Equipment today!**

# Did you hear the news? Call: 253-848-9473

**Crane Repair Service** now offers  
Spreader Bar & Lift Fixture Inspection & Load Testing

## OSHA & WISHA Codes Require:

- Load tests on all spreader bars and “below the hook” lifting devices
- Certificate kept on file to verify testing conducted.
- Re-load testing after any modifications or repairs

## The Service We Offer:

Accredited by **OSHA**, **NCCCO**, and **Washington State L & I** to inspect cranes and crane components, we can load test most any design and type of fixture.

- **Up to 60 Ton capacity and up to 30’ long. (No crane required)**
- **Load test certificates provided.**
- **Each spreader bar is tagged for identification.**

### Have a unique lifting device?

Call us with your special needs. Custom equipment is our specialty.

### Have other rigging equipment?

We can also inspect and manage all of your rigging gear.

Proper ID plate
